

*Honors*

College undergraduates must use this petition when requesting to drop a non-impacted course during Week 8 through the last day of instruction for the term.

This petition may not be used to withdraw from all classes on your study list. Late dropping a class via this petition does not exempt you from the College's Expected Cumulative Progress requirement, Financial Aid progress requirements, or from full-time enrollment requirements associated with other programs or services.

Please note that students are limited to three restricted late drops in their academic career. Students who process more than one restricted late drop during a single term must meet with an academic counselor in their College counseling unit.
