Bridge to the Doctorate
A SPECIAL OPPORTUNITY FOR LSAMP STUDENTS

The UC Davis Bridge to the Doctorate (BD) is funded by the National Science Foundation and provides graduate fellowships for Science, Technology, Engineering and Mathematics (STEM) graduate students from underrepresented minority populations. Beginning Fall 2016, the UC Davis-BD will support 12 newly enrolled Ph.D. students with guaranteed support for five years, contingent upon satisfactory progress in their degree programs. The BD program will support LSAMP students exclusively.

UC Davis has been recognized as America’s Coolest School by the Sierra Club and is number 1 in the world for impact of research on life and earth sciences. The campus is a dynamic and exciting place for graduate education. UC Davis has a proven commitment to rigorous academics and cutting-edge research. UC Davis STEM researchers are a vibrant community of scholars that can help you attain your career dreams!

BD candidates must first apply directly to their Ph.D. program of interest. Deadlines vary with program, typically Dec-Jan for September start. BD application deadline is March 15, 2016.

The UC Davis BD will be coordinated by UCD Graduate Studies, STEM Deans and Department Chairs and CAMP-UCD.
